

Name: Maria Elsa Gonzalez Perez

Title: Once upon a time

Description: I designed a padlet with two activities that can be done with students. One of them is related to feelings and emotions, and the other one is related to musical contents (musical styles, families of instruments...) and computer abilities (new apps and tools).

Justification: This padlet shows some new tools and activities provided in the course "Development of Teaching Competences" made in Norwich, in summer 2017.
