Helen Keller

Helen Keller is born in 1880 in Alabama, USA. When she is two years old, she has a terrible illness. She can't see and can't hear. Her parents are very sad. They can't speak with Helen any more.

The doctors can't help Helen. In 1887, her parents find her a teacher, Anne Sullivan. She tries to teach Helen the alphabet. This is very difficult for Helen because she can't see or hear.

One day, Anne Sullivan is using her finger to write *water* on Helen's hand. She puts Helen's other hand in a bowl of water. Suddenly Helen understands. On that day she learns 30 words.

The little girl is very clever. She soon learns how to write, and she even learns to speak. Many of the things she wants to learn are very difficult, but she never gives up. Later, she goes to university and spends her life helping other people who cannot see and cannot hear.
