

# 1. Trace the names of the parts of a plant

Repasa los nombres de las partes de una planta

The diagram illustrates the life cycle of a plant in four stages, connected by orange arrows in a clockwise cycle:

- Top:** A seedling with two leaves and a root system. Below it is a handwriting box with the word "leaves" in dotted letters.
- Right:** A seedling with a long taproot and two leaves. Below it is a handwriting box with the word "roots" in dotted letters.
- Bottom:** A seedling with two leaves and a root system. Below it is a handwriting box with the word "seeds" in dotted letters.
- Left:** A mature sunflower with a large head and a root system. Below it is a handwriting box with the word "flowers" in dotted letters.

# 2. Number the Pictures

Numera las imágenes.

Four illustrations are shown, each with a dashed orange box to its left for numbering:

- Top Left:** A girl with red hair and glasses is watering small seedlings in a pot with a red watering can.
- Top Right:** A girl is kneeling on the ground, planting seeds into a hole in the soil.
- Bottom Left:** A girl is kneeling on the ground, observing several small seedlings growing in a pot.
- Bottom Right:** A girl is kneeling on the ground, observing a large, mature plant with pink flowers and a well-developed root system in a pot.

3. What do plants need? Circle.

¿Qué necesitan las plantas? Rodea.

air

ball

sunlight

house

water

4. Write

Escribe

~~flowers~~ seeds roots leaves
