¿Cómo se juega?

Proponemos un objeto o un animal y les decimos a los alumnos que la definan, sin utilizar dicha palabra, haciendo referencia a sus características. Por ejemplo, si estamos trabajando los animales de granja, le podemos pedir que nos definan vaca, caballo, cerdo...

Para facilitar la definición se propone una **secuencia de preguntas** a las que irán dando respuesta, acompañadas de claves visuales.

Ejemplo: VACA

- *¿es un animal o un objeto?*
- *si es un animal, ¿dónde vive?*
- *¿es grande o pequeño?*
- *¿cuántas patas tiene?*

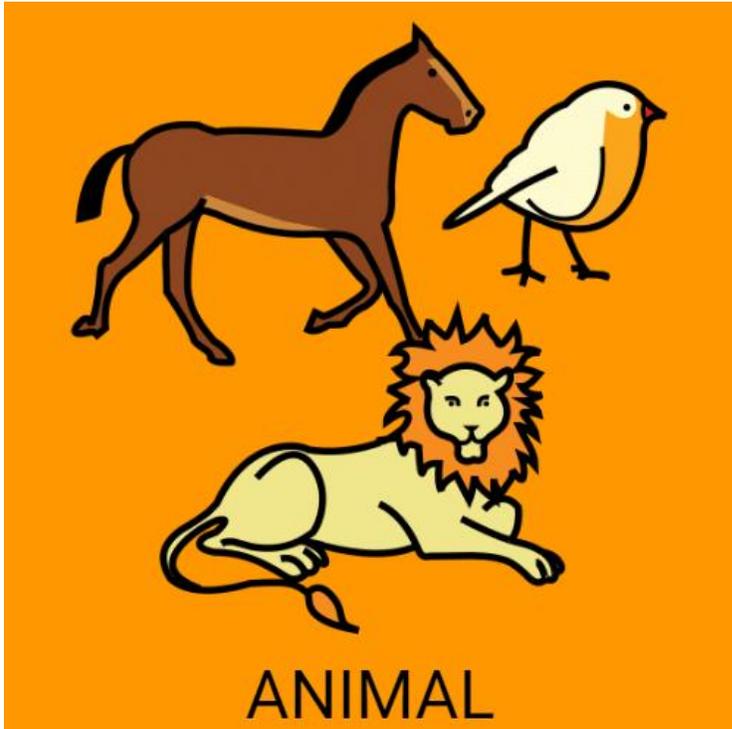

Tras terminar la secuencia, el profesor ayudará a los alumnos a recapitular la respuesta, formulando así la definición. Para ello se incluye una **página con todas las preguntas y las claves visuales**.

- **Ejemplo: VACA**
- *Una vaca es un animal, que vive en la granja, es grande y tiene cuatro patas.*

Al comienzo el profesor recordará la secuencia de preguntas y, a medida que se repita la actividad, intentará que la utilicen de forma autónoma.

- **Aspectos que se trabajan: semántica / morfosintaxis / pragmática.**
