This is the digital final project of the course "Formación lingüística y metodología AICLE", at Chichester University (United Kingdom), offered as a teacher training programme by Consejería de Educación, Juventud y Deporte, Comunidad de Madrid, in July 2017.

The aim of this project is to apply CLIL techniques using some contents of Natural Science for 5th grade of Primary Education, while linking these contents to English and Arts and Crafts.

It consists of 3 lesson plans, as part of a unit which will be developed in the following weeks. It will be applied at the beginning of the course 2017-18.
