

# FINAL PROJECT. KAHOOT FOR TEACHERS. PROS & CONS.

A brief explanation for teachers to know how KAHOOT can help us and why.

@JESURO 10 DE JULIO DE 2017 13:45

## EVALUATING KAHOOT

### ENHANCEMENT

1. SUBSTITUTION: Tech substitutes the traditional resources (pen and paper)
2. AUGMENTATION: The students can compare their answers with the rest of the classmates (we are sharing and improving knowledge)

### TRANSFORMATION

3. MODIFICATION: In kahoot students are not allowed to redesign.  
\*Our idea to achieve this step is that they download another Kahoot to design THEIR OWN one.
4. REDEFINITION: There is no option to create new task.  
\*Our suggestion is that once that they have created their Kahoot they record a video in which they explain the right or wrong answers are explained.

## EVALUATING KAHOOT

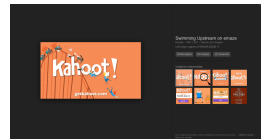

### SAMR MODEL

What's the SAMR Model?

# KAHOOT!!

Do you want to use a simple, easy, flexible, diverse, engaging, global and free game-based learning platform? You might find this tool very useful!

What's Kahoot?

Kahoot is a game based platform

<https://kahoot.com>

How to use Kahoot-Tutorial

<https://youtu.be/5mRzrjbM6aw>

PROS&CONS:

PROS:

1. It is fast paced, VISUAL and ENERGETIC.

2. It is a way to see student UNDERSTANDING of new concepts, material, vocabulary and teachers can integrate this technology in all subjects areas from reading and Math to life lessons such as bullying and digital citizenship.

3. STUDENTS can CREATE their own surveys and quizzes to show understanding of the

subject matter.

4. Teachers can use this as an assessment.

CONS:

1. BEAWARE OF THE WIFI CONNECTION you have in your school. In the classic way playing, the system usually collapse as there are too many players at the same time.

2. BACKGROUND MUSIC. The music to encourage students to play can be stressful and the kids can be overexcited and the atmosphere of the class can become too noisy and they can lose track of the aim of the activity.

LET 'S TRY IT!!
