INTRODUCTION

LET'S VISIT LONDON!

Who are we?

Let's visit London

Created using PowToon -- Free sign up at <http://www.powtoon.com/youtube/> -- Create animated videos and animated presentations for free. PowToon is a free tool that allows you to develop cool animated clips and animated presentations for your website, office meeting, sales pitch, nonprofit fundraiser, product launch, video resume, or anything else you could use an animated explainer video.

Rationale

This group project is meant to work three subjects in an integrated way (Social and Natural Sciences and English), for students in Primary 5.

This Project is a group work made of three teachers:

Victoria Buyreu

María José Fernández

María José Segovia

The Project is about a trip to London with different sights.

Each teacher creates activities of different subjects, Science, History and Literacy using digital tools.

We have worked in a cooperative way using Padlet. This tool allows us to share our knowledge and present our different digital Project in common board. Also, Padlets allow us to include more activities during the year and share new ideas and activities, even when we are in different schools.
