taboo overview

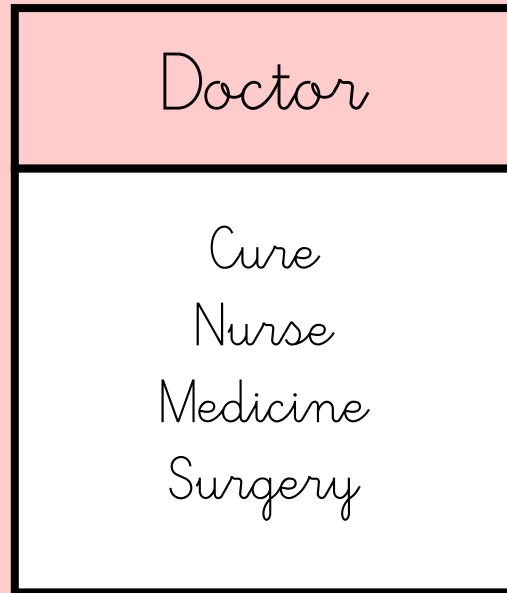

BOGGLE OVERVIEW: taboo is a vocabulary game that requires a **large number of word cards**, a **language frame for describing** and a **1-minute timer**. The game requires a minimum of **two players**.

instructions

Two or more players are divided up into **two teams**, with one team referred to as Team A and the other team referred to as Team B.

Word cards are placed on the table. **Team A selects** a person in their group to be the **Clue-giver**. This person **takes a word card**. This card has the guess word on the top of the card and the taboo words listed below the guess word. Clue-givers then **start, keep the timer** and must get their **team to say the guess word** on the card **without using** one of the **taboo words** in one of their clues. **If a taboo word is used**, then Team B must penalize Team A by causing the current guess card to go into the discard pile.

Play is continued until time runs out. Each time a teammate successfully guesses a guess word, a new card is placed upon the old and each card in this pile represents one point for Team A.
