

WORKING ON PHONICS

Here you will find two interactive activities to work on phonics for second graders.

ACTIVITY 1: The intrepid plane.

Link: <https://view.genial.ly/5b50a0ebcf01f92a1d459991/phonics> .

Aim of the activity: To help students to discriminate some of the main letter sounds such as: a, u, iu and i. This activity will be developed using computers or tablets.

Age group: 7- 8 years old. Second Grade.

Materials: Computer or tablet.

App: Genial.ly.

Time: 10 minutes.

Description: This activity will get students thinking. Students will be provided with four words; three of them have the same pronunciation but the other is pronounced in a different way. The objective for students is to discriminate the odd one by clicking on it. There are four different sets of words containing some of the main sound vowels.

This activity allows children to work on their own, following their paces and receiving immediate feedback. As they have both to blend and read the words, they are working on different skills.

ACTIVITY 2: Score the goal.

Link: <https://view.genial.ly/5b519004b09bea2b8f378b41/phonics-2> .

Aim of the activity: To help students to discriminate between long and short vowel sounds. This activity will be developed using computers or tablets.

Age group: 7- 8 years old. Second Grade.

Materials: Computer or tablet.

App: Genial.ly.

Time: 10 minutes.

Description: This activity will get students thinking by providing them with a word. They have to choose and click on the correct option (long or short sound). The objective for students is to decode the word and distinguish between long or short vowel sound.

This activity allows children to work on their own, following their paces and receiving immediate feedback. As they have both to blend and read the words, they are working on different skills.
