Write as many **nouns** as possible!

instructions

Players have **three minutes** to find as many words as they can in the grid, according to the following rules:

- ❑ Words must be related to the '**task card**'.
- ❑ Words must contain **at least three letters**.
- ❑ No letter cube may be **used more than once** within a single word.
- ❑ **Write your words**. You can put each word on a new line or separate the words with spaces or commas. It does not matter whether you use upper or lower case letters.
- ❑ When the time is up, calculate your **score** as follows:

Fewer than 3 Letters: **no score**
3 Letters: **1 point**
4 Letters: **1 point**
5 Letters: **2 points**
6 Letters: **3 points**
7 Letters: **4 points**
8 or More Letters: **11 points**

- ❑ Full credit is awarded for both the **singular and plural** forms of a noun provided you list them as separate words, so **cat** and **cats** each score a point. The same is true for all other derived forms (e.g. **chew**, **chews**, **chewed**, etc.).
- ❑ If a word appears more than once in the grid, it may **not be counted twice**. Also, multiple meanings of the same word do not earn multiple credit.
- ❑ Any dictionary word is allowed. As in most word games, you will not receive credit for **proper names, abbreviations, contractions, hyphenated words, or foreign words** that are not in an English dictionary. You will be penalised 1 point for each guess you make that is not recognised as a valid word.
